THUR	I attended first meeting organized by Ms. P Inderlal where she was discussing about Graduate Recruitment Portal project plan. In the meeting she explained how the task will be done, and step by step that the client is currently managing the Graduate Recruitment Portal, also the data included. Ms. P Inderlal also explained that the physical processes need to be represented as data flow. That is my task for next week in the project plans.					
FRI	I attended a meeting with project Client Ms. B Abrahams where she discussed Graduation Recruitment Portal current processes. In her explanation she said the current system a Graduate send a CV via Graduate Recruitment Portal email address that she then saves in a folder. The CV can be sent by a Graduate in any format that Ms. B Abrahams then must convert manual in a PDF format to send to companies. She also explained that she must use excel as a database to send CVs to companies. The Graduate also receives acknowledgement email for CV sent.
