

WORK INTEGRATED LEARNING (WIL) PROGRAMME (Marvin Hope – 219445842)

NAME OF COMPANY/PROJECT:											
WEEK	FROM	1 st August 2022				TO	5 th August 2022				
TUES											
WED											
THUR		Project presentation 3 (10:05 am – 10:57 am) (Meeting) – In the meeting, the ma'am was explaining that the Chuma (Student) was the group leader of the recruitment portal project. Ma'am also explained how to set up a data flow diagram and that our logbooks must be signed by the client to insure our progress. Ma'am suggested to Chuma that it will be beneficial to split the group into smaller groups to ensure efficient workflow and that it is manageable also.									
FRI		Project presentation 3 (9:01 am – 9:44 am) (Meeting with the client) – In the meeting today we met the client (Bronwyn Abrahams) who is the recruitment officer for CPU. In the meeting, Bronwyn Abrahams mentioned the current system and the improvements that are required for the project. Bronwyn Abraham also mentioned that currently, she types out all the CV details from emails, which is not feasible for a large influx of students that are submitting their CVs. Mrs. Prima also stated that we as students must have our logbooks today (5 th August 2022) so that they can be signed by the client. Mrs. Prima also mentioned that we as students must make a transcript that contains the requirements and functions of the system. Mrs. Prima also mentioned that the data flow diagram is for next week Friday (12 th August). Mrs. Prima also stated that we must finish our data-flow diagram that is due on the (15 th of August 2022).									
MENTOR EVALUATION		RATINGS (tick the relevant box)					STUDENT REFLECTION				
EMPLOYABILITY SKILLS		Requires Improvement	Inconsistent	Marginal	Competent	Excellent	EMPLOYABILITY SKILLS				
		1	2	3	4	5					
COMMUNICATION SKILLS							COMMUNICATION SKILLS	For the communication skills, today (5 th August 2022) I met with the client (Bronwyn Abrahams) and the ma'am explained the current system that she is using for the submission of the CVs.			
PROBLEM SOLVING SKILLS							PROBLEM SOLVING SKILLS	For the problem-solving skills, while ma'am was explaining the current system that she is currently using, I noticed that it is not feasible for a huge influx of data (CV) via email. I have seen problems that can be fixed, one problem-solving data is using a database and sorting the data into categories and the registration progress can be saved on WordPress.			
DECISION MAKING SKILLS							DECISION MAKING SKILLS	For Decision-making skills, I have decided that it will be beneficial that implement a database and create an automation message for a successful or failed message to the student. For the registration process, using WordPress will be beneficial where the user will enter their details on the sheet and submit it on the site.			
TEAMWORK SKILLS							TEAMWORK SKILLS	For team skills, we as a team attended the meeting with the client and we discussed what are the requirements for the system to make sure that we meet the client's requirements.			
TECHNICAL SKILLS							TECHNICAL SKILLS	For technical skills, I have used Ms. Teams to attend the meeting.
