

WORK INTEGRATED LEARNING (WIL) PROGRAMME (Graduate Recruitment Portal)

NAME OF COMPANY/PROJECT:						
WEEK	FROM	[01/08/2022]			TO	[05/08/2022]
TUES						
WED						
THUR	Today we met as the Graduate recruitment team with our WIL coordinator. She introduced the Project we would be working on and ran us through the project plan for the graduate recruitment project. She also stated that we would have to design a flow diagram for the process of the paper-based system and how we would initially automate that whole process.					
FRI	Today we met with our WIL coordinator together with the Graduate Recruitment Portal client. She ran us the the steps she takes to process the applications of graduates and how the process goes about. She also indicated that the graduates send her an email with their CV, and she confirms. Then some information is captured on an excel spreadsheet and some information is kept on paper. This is then updated every three months

COMMUNICATION SKILLS			X			COMMUNICATION SKILLS	I did not communicate much this week as we only met twice, and the group gathered this week and no tasks were given to team members.
PROBLEM SOLVING SKILLS			X			PROBLEM SOLVING SKILLS	I did not solve any problems this week as we have not started with the process of the system but will be doing so next week.
DECISION MAKING SKILLS			X			DECISION MAKING SKILLS	I did not contribute to any decisions this week as there were no decisions to be made individually and as a team. All skills set will officially be required in the next coming weeks when the project officially kicks off.
TEAMWORK SKILLS			X			TEAMWORK SKILLS	My teamwork skills were poor this week because I did not give in any input in the two meeting we had with the team and client this week.
TECHNICAL SKILLS			X			TECHNICAL SKILLS	I used MS teams this week for navigating through the meetings that were hosted for the team and client. I also managed to access the project plan on the platform and access our deliverables for the project.

WORK INTEGRATED LEARNING (WIL) PROGRAMME (Graduate Recruitment Portal)

NAME OF COMPANY/PROJECT:					
WEEK	FROM	TO			
TUES					
WED	Today I woke up and I did some research and learnt what a flow diagram is and what a transcript. I did this so I could implement a desired outcome for the deliverables we have to submit for the two assignments due for the project.				
THUR	Today I implemented the flow diagram of the Graduate Recruitment Portal and went through the recording and files of the meetings we had so that I implement the correct diagram that was described by the client.				
FRI	Today I implemented the transcript of our group meeting with the client. I re listened to the recording of the meeting and converted the meeting to a transcript and jotted down all the important points raised.

COMMUNICATION SKILLS				X		COMMUNICATION SKILLS	Communication was carried out on multiple platforms with the group. Communication was formed via whatsapp and also used teams to communicate as a whole.
PROBLEM SOLVING SKILLS			X			PROBLEM SOLVING SKILLS	I managed to conduct research on what a DFD was and was also able to implement the required diagram for the portal. I also identified issues with the system in place.
DECISION MAKING SKILLS				X		DECISION MAKING SKILLS	When it came to decisions, decisions were made as a collective in the group. We made more informed decisions on requirements for the system diagram and allocated time to present individual diagrams.
TEAMWORK SKILLS				X		TEAMWORK SKILLS	With teamwork I worked well with my team as I was communicating with the team members and contributing to ideas thrown in the group.
TECHNICAL SKILLS			X			TECHNICAL SKILLS	I was able to learn and navigate through our meeting portal with the client and supervisor on teams. It was a hassle at first but I was also able to use whatsapp as a technical tool of communication including word to compile the DFD.

NAME OF COMPANY/PROJECT:						
WEEK	FROM	[15/08/2022]	TO	[19/08/2022]		
TUES	Today I met with team on google meets. The purpose of the meeting was to distinguish what the desired Data Flow Diagram would be most suitable to present to the client for our next meeting. We also discussed a few components of the diagram and what the process is.					
WED	Today I had to re do my data flow diagram for the graduate recruitment portal because the one I did was wrong, and I had to implement the manual process of the recruitment steps. We also met informally today as the group and chose the best diagram to present to the client.					
THUR	Today I conducted research on proper ways to implement a DFD and what the different levels of a DFD are. I also looked for tools that could be best to use to compile the DFD for the required system.					
FRI	Today we met with the client, and we presented the diagram we thought best represented the manual steps the administrator implements. We came to find out that the diagram presented was a level one diagram and needed a few adjustments. We then got introduced to Figma a data flow designing tool that would unify the design an implantation of the group.

COMMUNICATION SKILLS			X			COMMUNICATION SKILLS	Communication was carried out on multiple platforms with the group, we met through teams, and messages were also being sent on WhatsApp group and also met on Google meets.
PROBLEM SOLVING SKILLS				X		PROBLEM SOLVING SKILLS	I managed to come in terms with the fact that we misinterpreted what was expected from us with the diagram and implemented the correct manual process steps.
DECISION MAKING SKILLS				X		DECISION MAKING SKILLS	When it came to decisions, I contributed by giving in input on what was the best diagram to present to the client and also gave the group some insight of unclear tasks.
TEAMWORK SKILLS			X			TEAMWORK SKILLS	I voiced out my concerns during our meeting and shared my opinions of what I think was expected from us in terms of the data flow diagram.
TECHNICAL SKILLS				X		TECHNICAL SKILLS	I managed to use Lucid Charts when it came to implementing the diagram and also got introduced to Figma a new tool to help the team with diagrams.

WEEK	FROM	[22/08/2022]			TO	[26/08/2022]
TUES						
WED	Today I conducted some research on the different levels of the data flow diagram we had to construct for the graduate recruitment portal. I discovered that the different levels illustrate different implementations and complexity levels. I also learnt how to use Figma to construct my DFD and implemented the desired outcome for the portal.					
THUR	Today we met as the Graduate recruitment team. Each team member had the chance to present their own individual DFD that they came up with. After the presentation from each individual we chose the most appropriate diagram to present to the client and chose the individual that would present to the client.					
FRI	Today we met with the Graduate Recruitment Portal client. The team presented the chosen DFD to the client and ran her through the automated process of the DFD for the graduate recruitment portal. The client further stated that there was an element that needed to be added. The client also addressed logbook issues and gave some insight and advice.

COMMUNICATION SKILLS			X			COMMUNICATION SKILLS	Communication was carried out on multiple platforms with the group, we met through teams, and messages were also being sent on WhatsApp group and also met on Google meets to present diagrams.
PROBLEM SOLVING SKILLS				X		PROBLEM SOLVING SKILLS	I managed to understand the different levels of a DFD and correctly implemented the levels to each individual level of the DFD diagram. I was able to see the complexity of each level.
DECISION MAKING SKILLS			X			DECISION MAKING SKILLS	When it came to decisions, we decided collectively on the best diagram was best to present to ma'am. Each individual had the ability to vote on whatsapp or on the google meeting we conducted.
TEAMWORK SKILLS			X			TEAMWORK SKILLS	With teamwork I was able to attend all team meetings and I worked well with the team members that were present in the meetings.
TECHNICAL SKILLS				X		TECHNICAL SKILLS	I got introduced to a new app which was discord. I struggled a bit to navigate through the application, but I managed to get the hang of. I also got given rights to upload minutes on the meeting minutes thread on the group server.
