TUES	On Monday the 15th I had group meeting with regards to the Project plan and Data Flow Diagram that we will present to the client					
	I spoke a lot about our Data Flow Diagram because there was a lot of confusion with regards to how we suppose to implement it					
	We ended the meeting by deciding that we should all decide on one DFD from on of our group members					
WED						
	We decided to have a vote on who's DFD we will be using by just sending our votes in our whatsapp group.					
	At the end of it all I voted for Mbuso and by a huge margin he won and that's the one we went with in our meeting on Friday.					
THUR						
FRI	I setup my laptop and attended class in the morning					
	For the following Data Flow Diagram, which will be based on the intended system for the Data Flow Diagram, Mr. Hendricks recommended that we utilise Figma because it is collaborative.
