

WORK INTEGRATED LEARNING (WIL) PROGRAMME

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal				
WEEK	FROM	23 August 2022			TO	26 August 2022
TUES	The team came together to present ideas on the way we going to complete the automated dataflow system diagram for the client. We came to the conclusion of separating into small groups and then each team will need to draw up their own diagram					
WED	My group met on discord server to use as a communication to start work on the dataflow diagram. We worked together on Lucidcharts to design the diagram and made good process.					
THUR	We schedule a meeting to allow groups to present and explain their diagrams, not a lot of groups completed, but from the those that did complete we evaluated and understood. We then made a pole on the group chat for students to vote which diagram we should present to the client.					
FRI	We had a scheduled meeting with the client. We presented the automated Dataflow diagram we agreed on to the client and got feedback on it.
