

WORK INTEGRATED LEARNING (WIL) PROGRAMME (Graduate Recruitment Portal)

NAME OF COMPANY/PROJECT:						
WEEK	FROM	[22/08/2022]			TO	[26/08/2022]
TUES						
WED	Today I conducted some research on the different levels of the data flow diagram we had to construct for the graduate recruitment portal. I discovered that the different levels illustrate different implementations and complexity levels. I also learnt how to use Figma to construct my DFD and implemented the desired outcome for the portal.					
THUR	Today we met as the Graduate recruitment team. Each team member had the chance to present their own individual DFD that they came up with. After the presentation from each individual we chose the most appropriate diagram to present to the client and chose the individual that would present to the client.					
FRI	Today we met with the Graduate Recruitment Portal client. The team presented the chosen DFD to the client and ran her through the automated process of the DFD for the graduate recruitment portal. The client further stated that there was an element that needed to be added. The client also addressed logbook issues and gave some insight and advice.					

MENTOR EVALUATION	RATINGS (tick the relevant box)					STUDENT REFLECTION	
EMPLOYABILITY SKILLS	Requires Improvement	Inconsistent	Marginal	Competent	Excellent	EMPLOYABILITY SKILLS	
	1	2	3	4	5		
COMMUNICATION SKILLS						COMMUNICATION SKILLS	Communication was carried out on multiple platforms with the group, we met through teams, and messages were also being sent on WhatsApp group and also met on Google meets.
PROBLEM SOLVING SKILLS						PROBLEM SOLVING SKILLS	I managed to come in terms with the fact that we misinterpreted what was expected from us with the diagram and implemented the correct manual process steps.
DECISION MAKING SKILLS						DECISION MAKING SKILLS	When it came to decisions, I contributed by giving in input on what was the best diagram to present to the client and also gave the group some insight of unclear tasks
TEAMWORK SKILLS						TEAMWORK SKILLS	I voiced out my concerns during our meeting and shared my opinions of what I think was expected from us in terms of the data flow diagram.
TECHNICAL SKILLS						TECHNICAL SKILLS	I used MS teams this week for navigating through the meetings that were hosted for the team and client. I also managed to access the project plan on the platform and access our deliverables for the project. I managed to use Figma when it came to implementing the diagram and also got introduced to Figma a new tool to help the team with diagrams.
