

WORK INTEGRATED LEARNING (WIL) PROGRAMME

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal				
WEEK	FROM	23 – 08 - 2022			TO	26 – 08 - 2022
TUES	First, I need to create a context diagram (also called level 0) that represents the entire recruitment system. It is sort of a bird's eye view that most people - engineers, customers, executives - look at to understand how a process works. After creating the Data Flow Diagram (DFD), I continued to add layers that provide detailed information about the process.					
WED	Moving on, I progressed to level 1 of the DFD which notates each of the main sub-processes that together form the complete system. I start of with a login module which demonstrates cycle Or the process of signing into the system and the process of validating data stored in the database.					
THUR	Designed level 2 of the DFD which shows a detailed view of the sub processes. This includes a detailed view of the search and filtering, resume upload, login and registration, job posting , and application management features. Met as a group to discuss progress thus far and possible improvements that can be implemented to the diagram.					
FRI	Met with the client to present the work we have done. Got some feedback from the client and discussed as a team the ways we are going to implement the changes requested by the client.					

MENTOR EVALUATION	RATINGS (tick the relevant box)					STUDENT REFLECTION	
EMPLOYABILITY SKILLS	Requires Improvement	Inconsistent	Marginal	Competent	Excellent	EMPLOYABILITY SKILLS	
	1	2	3	4	5		
COMMUNICATION SKILLS						COMMUNICATION SKILLS	The internet makes communication easier, mainly because it allows me to use social media to meet friends, family, colleagues. and socialize. As an individual, I have a strong social media presence and I'm a member of almost every social media platform available.
PROBLEM SOLVING SKILLS						PROBLEM SOLVING SKILLS	Being students from different backgrounds and societies naturally poses some challenges for us, but I managed to deal with all of them in a friendly manner. All disagreements have been resolved and we work together in harmony.
DECISION MAKING SKILLS						DECISION MAKING SKILLS	In a group, each member has their own opinion and may disagree with others. As a result, there may be conflicts between members. In this situation, members will get annoyed and disagree with the opinions of others. These show disadvantages of group decision making.
TEAMWORK SKILLS						TEAMWORK SKILLS	Teamwork is essential to unite several individuals with different experiences and knowledge. I believe that the presence of teamwork increases the likelihood of achieving a higher level of efficiency or effectiveness at work.
TECHNICAL SKILLS						TECHNICAL SKILLS	The use of technology and a wide range of innovative programs provide easy-to-use tools that encourage student collaboration and higher thinking.
