COMMUNICATION SKILLS						COMMUNICATION SKILLS	Participated in discussing the user interface designs for the graduate recruitment portal website.
							I was also able to help group members in communicating what software to use when designing the user interfaces
PROBLEM SOLVING SKILLS						PROBLEM SOLVING SKILLS	I experienced constant problems with my laptop that kept on "crashing" while I was doing my work. I then had to find a way to either solve the problem or work around it
							How I solved the problem, was that I used Word software on my mobile phone to continue with my task so long, till my laptop worked 100% again.
DECISION MAKING SKILLS						DECISION MAKING SKILLS	Was able to decide on who's UI to present to the client. How we decided was on a Google live document, where everyone can vote
							I also helped with deciding along with my group members on which software we can use to design the user interfaces
TEAMWORK SKILLS						TEAMWORK SKILLS	My teamwork skills for this task were quite satisfying, as I was able to complete my assigned tasks for the user interface
							I was also able to help one of my group members when they got stuck on their task of the user interface design.
TECHNICAL SKILLS						TECHNICAL SKILLS	Good technical skills as well, as I was able to use the software to help me complete the colorful user interfaces
							How I was able to use this software was through constant practicing using the software before I could apply my skills on the user interface design
