PROJECT 4: POSTER BRIEF

SUBJECT COORDINATOR:	Dr D Lakay (lakayd@cput.ac.za)
DUE DATE:	TBD (Suggested date: 20 October 2026)

ASSIGNMENT BRIEF: Poster Presentation

OBJECTIVE: Create a poster that effectively communicates the essence of your research, highlighting the main question, methodology, results, and conclusions. The poster should be visually engaging and easy to understand, aiming to communicate your project to an audience familiar with general IT concepts but not necessarily with your specific area of research.

AUDIENCE: The primary audience for your poster will include fellow *Advanced Diploma IT students*, *academics*, and *faculty members* attending the exhibition.

CONTENT REQUIREMENTS:

1. **TITLE:**
   - Must clearly **reflect the theme** of your project.
   - Should be **engaging and concise**.
2. **GRAPHICS:**
   - Use relevant images, charts, and diagrams to support or explain your project's key points.
   - Ensure graphics are high-quality and visually coherent.
3. **TEXT CONTENT:**
   - Introduce the problem or question your project addresses.
   - Outline the methodology used in your project.
   - Present key findings and conclusions.
   - Use **sub-headings** and **bullet points** to organise content and *make it easy to scan*.
4. **TECHNICAL SPECIFICATIONS:**
   - **Poster size:** A2 (420 x 594 mm)
   - **Orientation:** Portrait or Landscape (as appropriate to your design)
   - **Font choices** should be legible at a distance; use appropriate serif and sans-serif fonts to enhance readability.
5. **DESIGN AND LAYOUT:**
   - Ensure the title is prominent and positioned for maximum impact.
   - Arrange content logically, allowing the viewer to easily follow the flow from problem to conclusion.
   - Balance text and graphics to avoid overcrowding.
6. **AUTHOR IDENTIFICATION:**
   - Include names and affiliations of all project contributors at the bottom of the poster
7. **VALIDATE YOUR WORK:**
   - Use the rubric to check that you have covered and submitted ALL aspects of the assignment.

DELIVERABLES:

Final Submission: Submit your **printed poster** on the day of your presentation, and when you submit it, the evaluators will expect a discussion of **your poster**. Also, upload your poster to BlackBoard for external moderation on the day of the presentation.

PROGRESS EVALUATION: Students are required to make appointments to speak to their respective lecturers throughout the project.

PLEASE READ THROUGH THE BRIEF PROPERLY: Ask questions if you are not sure or do not understand. Check work before handing anything in; any missing and non-functional work will result in a deduction of marks.

RUBRIC FOR POSTER PRESENTATION

POSTER TITLE:			**TIME: 10 min**
STUDENT NAME:		**STUDENT NUMBER:**	

	DESCRIPTION	MARK	AWARDED MARK	MODERATED MARK
TITLE	**Clarity and Impact:** The title should be prominently positioned, larger and bolder than other text elements to ensure easy visibility. It must be spelled correctly and make logical sense. **Placement:** Must be clearly distinguishable from other text, ideally at the top or a central focal point of the poster, reading from left to right.	**2**		
GRAPHICS	**Relevance:** All graphics should directly support or illustrate the poster's theme or topic. **Arrangement:** Graphics need to be organised logically and sequentially to enhance the poster's narrative. **Quality:** Graphics should be clear and not distorted; background colours must not detract from visibility or understanding. **Integration:** Graphics should complement each other and the text to form a coherent visual story.	**3**		
MESSAGE	**Cohesion:** The title, graphics, and text should collectively convey a clear and concise message. The overall presentation should not be contradictory or confusing. **Accessibility:** The message should be understandable through the title and visual elements alone, without needing additional explanation.	**3**		
CONTENT	**Substance:** The poster should address a clearly defined problem or question and propose a solution or conclusion, either through text or graphical representations. **Structure:** Use of appropriate headings such as "Problem", "Research Question", "Findings", and "Conclusion" should guide the viewer through the content.	**8**	Brief version	
TECHNICAL COHERENCE	**Typography:** Adherence to taught standards regarding the use of serif or sans-serif fonts. Italics and underlined text should be avoided unless necessary for clarity. **Readability:** Text should be legible against the background, with suitable font size and colour. Spelling and grammar should be correct. **Aesthetics:** Spaces between graphics and text should be balanced. Colours should enhance readability rather than detract from it. **Authorship:** The names of the authors or contributors should be clearly visible.	**4**		
TOTALS		**20**
