APPLICATIONS DEVELOPMENT THEORY 4 (APT470S)

Assignment 4

This is a **group assessment** which is focused on **Software Dependability and Security**. This assignment will count 10% toward your total marks. Please read this brief and rubric carefully.

Rules regarding group work:

- ✓ Each group will consist of a maximum of 2 members and need to self-enroll on to BB.
- ✓ Students are expected to manage their groups themselves. Exception cases will be mediated by the lecturer.
- ✓ This assignment needs to be presented in the form of a Technical Report and will require a Blackboard upload.

The Brief:

During the COVID-19 Lockdown periods in South Africa several companies experienced security problems as there has been several security incidents and breaches. These ranged from webpages freezing, systems crashes, identity theft and fraud. Given the popularity and importance of your system you wish to protect your brand against these worst-case scenarios and ensure that your business can proceed as reliably and securely during lockdown.

Required:

You are tasked with developing an end-to-end plan which will provide the desired level of software dependability and systems security within the constraints of the brief. Your Software Dependability plan needs to cater for your system adhering to the elements of dependability (available, reliable and safe) during Lockdown levels 3 and below. You also need provide a Systems Security plan which explains how you will protect your systems and data during this period. Your solution must be presented as a technical report and is due on **21/10/2020**.

The Rubric:

Topic	20...14	13...7	6...0	Points
The Software Dependability Plan	Numerous paragraphs explaining the measures which will be in place to ensure that the system remains available, reliable and safe prior to - during and- post COVID-19 Lockdown level 3	Several paragraphs describing the measures which will be in place to ensure that the system remains available, reliable and safe prior to - during and- post COVID-19 Lockdown level 3	Limited/skimpy mention of the measures which will be in place to ensure that the system remains available, reliable and/or safe either prior to - during or- after COVID-19 Lockdown level 3	
The Systems Security Plan	Numerous paragraphs explaining how you will keep your information and systems secure during Lockdown Levels 3 and below	Several paragraphs describing how you will keep your information and/or systems secure during Lockdown Levels 3 and below	Limited/skimpy mention of how you will keep your information and/or systems secure during Lockdown Levels 3 and below	
Topic	10...8	7...4	3...0	Points

Technical Report	A concise yet detailed report which is well formatted and easy to read with appropriate headings, images, labels etc.	A detailed report which is well formatted and/or easy to read with some content lacking	A limited/incomplete report which lacks formatting and content
