

```
package ifandexample;

/*input a mark for adf1 and cnf1
student continue to 2nd year if both marks are >= 50
*/
import java.util.Scanner;

class IfAndExample {

    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        int adf1Mark, cnf1Mark;
        System.out.println("Please enter adf1 mark");
        adf1Mark = sc.nextInt();
        System.out.println("Please enter cnf1 mark");
        cnf1Mark = sc.nextInt();

        if (adf1Mark >= 50 && cnf1Mark >= 50) { //AND
            //you muust have a complete boolean expression on each side of &&
            System.out.println("You may continue into 2nd year");
        } else {
            System.out.println("Sorry, you must repeat 1st year");
        }
    }
}
```
