ORGANISATIONAL COMPONENT

1. INTRODUCTION

Welcome to the 3rd year of the Diploma in Information and Communication Technology in Application Development. Project Management III is taught across all 3 specialisation areas.

The purpose of this subject is to understand the theory and practice of project management in mature organisations. The course follows the structure of the PM Body of Knowledge (PMBOK). Students will create and work with problems which challenge them to design, implement, and demonstrate a thorough understanding of project management and key tools and techniques defined in the PMBOK.
