

WORK INTEGRATED LEARNING (WIL) PROGRAMME

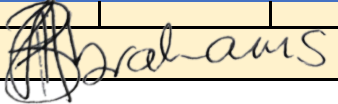

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal				
WEEK	FROM	16 August 2022			TO	19 August 2022
TUES	Seeing that this was my first week in the graduate program. I decided to first learn about the roles and tasks they had to do and what they included just to familiarize myself before I attempt any tasks or give my opinion on what they are busy with. They were currently busy with a project plan and data flow diagram. I did some research on the two before the week's meetings.					
	We had a meeting today to discuss the data flow diagram and the project plan I didn't say much in the meeting as I was still learning and getting used to the session.					
WED	In yesterday's meeting, we discussed a lot and decided that we should take a vote on which data flow diagram to present to the client. Each member had to vote they had two options					
	My vote went to Mbuso most of the members in the group voted for him, so we went with his idea and data flow diagram to present to the client in the follow up meeting with the client.					
THUR	In the WhatsApp group, we discussed what time to meet with the client on Friday.					
	We agreed that Mbuso will present the data flow diagram seeing that it was his design and understands it better					
FRI	The meeting we had today was a success although we were advised to use Figma.					
	It is collaborative and will be much better to use for our next data flow diagram for the system.					

MENTOR EVALUATION	RATINGS (tick the relevant box)					STUDENT REFLECTION	
EMPLOYABILITY SKILLS	Requires Improvement	Inconsistent	Marginal	Competent	Excellent	EMPLOYABILITY SKILLS	
	1	2	3	4	5		
COMMUNICATION SKILLS				X		COMMUNICATION SKILLS	Communication was up to standard seeing that I spoke with the leader of the program And constantly asked for assistance to understand what they were doing and what I had I had to do
PROBLEM SOLVING SKILLS			X			PROBLEM SOLVING SKILLS	We as a group identified the appropriate DFD to present to the client each member gave their take on the diagram and we as a group selected the correct one
DECISION MAKING SKILLS			X			DECISION MAKING SKILLS	Held a small meeting and had a vote on two DFD I selected the DFD I felt that was Appropriate for the system. My decision was based on how understood it.
TEAMWORK SKILLS				X		TEAMWORK SKILLS	Interacted with the group leader and members of the group to get me updated on what They were working on and shared my ideas with them for future meetings and designs.
TECHNICAL SKILLS				X		TECHNICAL SKILLS	At the beginning of the week, I researched data flow diagrams and read up on the project Plans and made a note again after today's meeting to research Figma.

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal						
WEEK	FROM	23 August 2022				TO	26 August 2022	
TUES	Gave my thoughts and ideas on the plan for the week we need to come up with a level 0, 1, and 2 data flow diagram to present to Ms. Abrahams this Friday.							
	Continued throughout the day with ideas and suggestions on how to approach the task							
WED	Had a small discussion in the group to form groups that consist of 4 members each I joined a group with Edward, Ishmael and Brady.							
	Our plan for the week is to come up with designs for the data flow diagram and to also work together for future tasks							
THUR	Started the morning off with more tutorials on DFD designs to adjust the design I made for the graduate portal.							
	Asked one of my group members for assistance on resources for data flow design and to give their thoughts on my current design							
	Attend the group meeting at 8 pm here groups presented their data flow diagrams and afterward we had to vote for the best data flow diagram to present to Ms. Abrahams.							
FRI	Before attending the session with my group members and Ms. Abrahams I changed the format of my logbook from last week because the format didn't allow Ms. Abrahams to put her signature in and the logbook requires her approval for the blackboard submission at the end of the month.							
	The session started at 9 on the dot before the session our group leader cleared up some questions with Ms. Abrahams regarding the logbook submissions and just overall adjustments to the project. Followed by							
	Mr. Haines explained the data flow diagram we worked on in separate teams this week. As mentioned in Thursday's logbook we picked the best DFD to present.

COMMUNICATION SKILLS				X		COMMUNICATION SKILLS	With the current interactions, I had with group members on WhatsApp and in the google	
							Meet this week I improved my communication skills a lot not just with my own group but with every member in the group since I'm still new to the project.	
PROBLEM SOLVING SKILLS			X			PROBLEM SOLVING SKILLS	As mentioned above I had interactions with group members on Whatsapp to discuss.	
							thoughts and ideas on how to design the new improved data flow diagram	
DECISION MAKING SKILLS				X		DECISION MAKING SKILLS	We as the group decided that should form groups of 4 members to make work easier and to expand the suggestions for future tasks in the project.	
TEAMWORK SKILLS				X		TEAMWORK SKILLS	In the meeting Thursday night i worked closely with the members to come with ideas and	
							told them what we can do to tackle the upcoming tasks and what to do with the students that are not attending the sessions.	
TECHNICAL SKILLS			X			TECHNICAL SKILLS	Followed the instructions from last week and made my DFD in Figma and applied	
							more techniques to it
