

WORK INTEGRATED LEARNING (WIL) PROGRAMME

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal Project			
WEEK	FROM	11 October 2022		TO	14 October 2022
TUES	My task for the week is to create and develop user interface design for vacancy management screen				
	Today I was searching for software tools to design the vacancy management screen, I started using a tool but the features so I couldn't use it because there was limit on the colour and I needed to use a specific colour for my design. I had to continue searching for another tool.				
	I asked group member on advice for what tool to use so and they suggested Figma.				
WED	I started using Figma today for the first time and I watched videos on YouTube to assist me use the tool and make use of all the features.				
	I was busy designing the UI design on Figma which was quite easy to adapt to using the tool.				
	I completed the UI design successfully for the vacancy management screen. And send my design to my smaller group (Group A) for feedback before presenting it to other members.				
THUR	I attended a meeting with team members to discuss tasks completed from team member and I presented my UI design to members				
	I compiled my smaller group's (Group A) UI designs so that other members for evaluation.				
FRI	I attended a meeting with our client to discuss the deliverable of UI design completed for the week.				
	I took some notes done on the feedback we received from our client so that we know what the requirements are.

COMMUNICATION SKILLS						COMMUNICATION SKILLS	I attended meetings this week and took part in group discussions, which improved my communication skills. I contribute my ideas and aid with problem-solving during meetings. I was able to present my task of my UI design to my members for feedback.
							To further develop my capacity for effective collaboration, I'll maintain pushing myself to participate more in meeting with our client.
PROBLEM SOLVING SKILLS						PROBLEM SOLVING SKILLS	In our meeting with our client, I took notes on the feedback that we received from our client on the requirements she wants for the system. I also suggest some issues that we had during this week.
DECISION MAKING SKILLS						DECISION MAKING SKILLS	I needed to choose wisely what designs to put on the screen I was creating and what tool to utilize to create a strong user interface.
TEAMWORK SKILLS						TEAMWORK SKILLS	I worked well with my team in our team meeting to deliver our task this week. We collaborate effectively well in group meeting when we presented to each other for feedback. We received feedback from our client to be earlier to meetings which we will work together as a group.
TECHNICAL SKILLS						TECHNICAL SKILLS	This week's task required me to create a user interface (UI) for the vacancy management screen, which required me to learn how to utilize a new software program and use my creativity to design it. I was successful in using it. I also used the techniques I was learned in my course to complete my task.

WORK INTEGRATED LEARNING (WIL) PROGRAMME

							My technological skills are enhanced by exposing myself to new software. In addition, I had to apply my technical expertise and creativity to create the UI design that was given to me.
