

WORK INTEGRATED LEARNING (WIL) PROGRAMME

NAME OF COMPANY/PROJECT:		Graduate Recruitment Portal				
WEEK	FROM	11 / 10 / 2022			TO	14 / 10 / 2022
TUES	User interface (UI), is an integral aspect of user experience (UX), is made up of two main components: interaction design, which is the logical and practical arrangement of components, and visual design, which reflects the appearance and feel of a product. The aim of UI design is to produce an interface that makes user interaction with a product simple, effective, and pleasant.					
WED	After designing all the UIs, I made a prototype which is a simulation of how a real product will work and feel. It's used for design feedback and user testing. They can range in sophistication from a simple idea scribbled on the back of a napkin to a clickable prototype that closely resembles actual software.					
THUR	Both the UI and Prototype design I made them using Marvel App, which is a great tool for prototyping. I reviewed the designs and presented the actual final design of the interfaces to the rest of the team.					
FRI	Demonstrated the final product to the client. Received feedback and gained some valuable insights as far as the design is concerned.					

MENTOR EVALUATION	RATINGS (tick the relevant box)					STUDENT REFLECTION	
EMPLOYABILITY SKILLS	Requires Improvement	Inconsistent	Marginal	Competent	Excellent	EMPLOYABILITY SKILLS	
	1	2	3	4	5		
COMMUNICATION SKILLS						COMMUNICATION SKILLS	In a sense, communication is the oil that keeps any firm lubricated. When there is strong workplace communication, employees are passionate and engaged, and they feel like they belong.
PROBLEM SOLVING SKILLS						PROBLEM SOLVING SKILLS	The valuable skill that every employee must possess, in my opinion, is the ability to formulate various solutions and use critical thinking skills to address various complex challenges.
DECISION MAKING SKILLS						DECISION MAKING SKILLS	One lesson I took away from this experience is that knowing what choice to make is not sufficient. To persuade other team members and leaders that my decisions are the best ones, I also need to be able to articulate prospective outcomes
TEAMWORK SKILLS						TEAMWORK SKILLS	I feel like to bring together many individuals with various backgrounds and skill sets, teamwork is crucial.
TECHNICAL SKILLS						TECHNICAL SKILLS	Easy-to-use tools that promote student collaboration and advanced thinking are provided via the use of technology and a wide variety of creative programs, such as Figma, Marvel-App, and many more.
