

## WORK INTEGRATED LEARNING (WIL) PROGRAMME

|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|--|--|--|--|-----------|-------------------|--|--|--|--|
| <b>N NAME OF COMPANY/PROJECT:</b> |                                                                                                                                                | Graduate Recruitment Portal |  |  |  |  |           |                   |  |  |  |  |
| <b>WEEK</b>                       | <b>FROM</b>                                                                                                                                    | [11 October 2022]           |  |  |  |  | <b>TO</b> | [14 October 2022] |  |  |  |  |
| <b>TUES</b>                       | I researched the User Interface Design of other recruitment portal systems.                                                                    |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   | I started designing the User Interface of the forget password page using Lucid Chart.                                                          |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
| <b>WED</b>                        | I created the vacancy page which was a bit trickier. I followed the wireframes I made last week to have a clear picture of how it should look. |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
| <b>THUR</b>                       | I completed my User Interface Designs. Then sent it to the group (group A) to be checked over and added to the rest of the groups UI Designs.  |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
| <b>FRI</b>                        | I logged into MS Teams for the meeting with the client. The UI Designs was presented, and changes had to be made to some of the pages.         |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |
|                                   |                                                                                                                                                |                             |  |  |  |  |           |                   |  |  |  |  |

| MENTOR EVALUATION      | RATINGS (tick the relevant box) |              |          |           |           | STUDENT REFLECTION     |                                                                                                                                                                                                       |
|------------------------|---------------------------------|--------------|----------|-----------|-----------|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EMPLOYABILITY SKILLS   | Requires Improvement            | Inconsistent | Marginal | Competent | Excellent | EMPLOYABILITY SKILLS   |                                                                                                                                                                                                       |
|                        | 1                               | 2            | 3        | 4         | 5         |                        |                                                                                                                                                                                                       |
| COMMUNICATION SKILLS   |                                 |              |          |           |           | COMMUNICATION SKILLS   | This week for the UI designs the group and I used CPUTs blue color and Helvetica font which was provided by my group member Breyton.                                                                  |
|                        |                                 |              |          |           |           |                        | We communicated while we were busy creating our designs to ensure that the designs were consistent with each other.                                                                                   |
| PROBLEM SOLVING SKILLS |                                 |              |          |           |           | PROBLEM SOLVING SKILLS | Following the wireframes created last week made it easier to create the UI Designs.                                                                                                                   |
|                        |                                 |              |          |           |           |                        | The vacancy UI was a bit confusing, so I need to get help from my group member Mbuso to continue.                                                                                                     |
| DECISION MAKING SKILLS |                                 |              |          |           |           | DECISION MAKING SKILLS | The UI designs had to follow a certain structure to ensure that all the UI designs including my groups members was the same so I had design in a way that would show the designs are from one system. |
|                        |                                 |              |          |           |           |                        |                                                                                                                                                                                                       |
| TEAMWORK SKILLS        |                                 |              |          |           |           | TEAMWORK SKILLS        | We really work well as a team.                                                                                                                                                                        |
|                        |                                 |              |          |           |           |                        | We all sent our parts to the group to be checked by each other. We made that our color scheme was the same as well as the font used.                                                                  |
| TECHNICAL SKILLS       |                                 |              |          |           |           | TECHNICAL SKILLS       | I used lucid chart to create my UI designs. It was very easy and quick to use. Another software would like to try out next time would be Figma.                                                       |
|                        |                                 |              |          |           |           |                        |                                                                                                                                                                                                       |
