MOTIVATION

During this case study, you will create various customer invoices, then post their incoming payments and reverse and reassign incorrectly posted payments.

A majority of the data already exists in the SAP system. The static data, known as master data, simplifies the processing of business processes. Examples include customer data and all types of G/L accounts.

PREREQUISITES

Before you work on the case study, you should familiarize yourself with navigation in the SAP system.

To carry out this FI case study successfully, it is not necessary to have worked through the FI exercises or other case studies. However, it is recommended.

NOTES

This case study uses the fictitious model company Global Bike.

 Process Overview

Learning Objective Understand and manage an external accounting process in the area of accounts receivable (AR).

Time 125 Min.

Scenario To handle an external accounting process, you will take on different roles within Global Bike. Thereby you will work in the Financial Accounting (FI) department and there in the customer accounting department.

Beteiligte Mitarbeiter Stephanie Bernard (Accounts Receivable Accountant)
Shuyuan Chen (Head of Accounting)

In this case study, you will generate and post various customer invoices in isolation in the SAP system. Preceding process steps of sales, purchasing or production are not considered in this scenario for simplification reasons.

First, you will look at the payment terms negotiated with Global Bike Inc. customers and update them as necessary. After creating the individual customer invoices, you will post the incoming payments in the SAP system for some of them. You will then check the effect of these postings on the G/L accounts involved in the process.

Unfortunately, as you proceed, you discover that some of these incoming payments, and sometimes even the receivables on which they are based, have been entered incorrectly into the system. The case study covers a total of three cases:

- *Problem scenario 1* – Your customer Motown Bike has informed you by telephone that the delivery of First Aid Kits with reference ### Motown 2 is no longer required. By mutual agreement, the posting document for the delivery and services receivable is reversed (cancel the billing document). Also, check the impact of this on your balance sheet.
- *Problem scenario 2* – Your customer Philly Bikes has two outstanding payments for the same amount. He settles the first one with an incorrect reference, which is why you mistakenly settle the last open invoice with this incoming payment. You therefore have to reset and reassign the payment.
- *Problem scenario 3* – In addition, you have mistakenly posted an incoming payment from your customer Windy City Bikes. Therefore, you have to cancel the payment completely.

The SAP system distinguishes between:

- Reversal of a delivery & service receivable before receipt of payment (cancel billing document)
- Document reversal after receipt of payment
- Reversal of a customer payment that has already been made

Finally, since these postings are income statement effective, you will see an impact on the balance sheet and income statement.

Below you will first find an overview of all affected invoices/postings.

Customer	Text	Reference	Amount	Cash discount
Motown Bikes	Inv: Bicycle Accessories	### Motown 1	5.000	yes
Motown Bikes	Inv: First Aid Kits	### Motown 2	2.000	yes
Philly Bikes	Inv: Men's Off Road Bikes	### Philly 1	3.500	no
Philly Bikes	Inv: Women's Off Road Bikes	### Philly 2	3.500	no

Step 5: Display customer balances.....	25
Step 6: Scenario 1 - Cancel receivable/bill	27
Step 7: Scenario 2 - Change invoice assignment	32
Step 8: Scenario 3 - Reset and revers incoming payment	40

Step 1: Change terms of payment for a Customer

Task Change the terms of payment of your customer .

Time 10 Min.

Short Description Change the terms of payment of your customer Motown bikes to grant a discount.

Name (Position) Stephanie Bernard (Accounts Receivable Accountant)

The business partner Motown Bikes has negotiated new conditions with the finance department of Global Bike. If the customer settles his invoice within 14 days, he will automatically be granted a 2% discount. In order for this to happen automatically when the incoming payment is posted, you need to change the master data of this customer. By maintaining this information in the master data record, the system calculates discounts and rebates automatically.

Scenario

To change your customer's master record, use the *Manage Business Partner Master Data* app in the *Financial Accounting* area.

Entry

In the *Manage Business Partner* window, enter **Motown** in the search field at the top left and then click **Go**. As a result, you will get a lot, more precisely 1000, customers with the name *Motown Bikes*.

Motown

☐	Motown Bikes 132004	1550 One Towne Square	Detroit	48076	US	FI Customer (FLCU00), Customer (FLCU01)	>

Note In the real company Global Bike, the business partner *Motown Bikes* would of course have only one and not 1000 master records. The SAP S/4HANA teaching and learning environment presented here, however, allows up to 1000 students to work on business processes in parallel. Each learner has his or her own copy of each master data record for this purpose.

1000 copies

To ensure that each student uses the correct master record, the user's three-digit number has been stored for each of these in the *Search Term 1* field.

Search Term 1

Since the *Search Term 1* field is not a default filter criterion of this app, you need to add it first. To do this, select the button **Adapt Filters (1)** on the right. In the *Adapt Filters* window, scroll down to the *General Information - Name* section and open it by clicking on the icon . Select the *Search Term 1* checkbox there and confirm with **OK**.

☒ Search Term 1:

In the additional field that now appears, enter your three-digit number (###) and click again on **Go**.

###

The results list should now contain only one entry: Your customer *Motown Bikes* in Detroit. To see all the detailed information of the business partner, click on the icon  at the end of the line.

Business Partners (1)						Create	Object Page	Copy			
Business Partner	Street	City	Postal Code	Country	Role						
☐ Motown Bikes 132000	1550 One Towne Square	Detroit	48076	US	FI Customer (FLCU00), Customer (FLCU01)						>

In the *Business Partner* window that opens, first check that your three-digit number (###) is actually in the *Search Term 1* field. After you have made sure of this, click in the upper right corner on **Edit**. This will not only allow you to view the properties of these customers, but also to change them. You will see that the fields are now ready for input.

Basic Data ▾ Roles Address ▾ Bank Accounts Payment Cards Identification ▾ Cont

Then click at the bottom right on .

Back in the *Customer* screen, click now on .

This will take you back to the initial screen of the *Motown Bike* business partner. Here you click on the bottom right .

You will receive the following message.

Master data record saved

Click  to return to the SAP Fiori Launchpad.

Step 2: Create customer invoice

Task Create multiple accounts receivable invoices.

Time 45 Min.

Short Description Use the SAP Fiori Launchpad to manually enter multiple customer invoices in the system.

Name (Position) Stephanie Bernard (Accounts Receivable Accountant)

In this step you will create seven customer invoices in the SAP system. Debtors (lat. *debere* = to owe) are business partners against whom there are receivables for services rendered.

Debtor

The *accounts receivable* summarizes the individual receivables of a customer and is usually maintained in the customer sub-ledger. In parallel, a collective account, also called a reconciliation account, is maintained in the general ledger. Normally, this account is called *trade receivables*.

Accounts Receivable

To create a customer invoice, use the *Create Outgoing Invoices* app in the *Financial Accounting* area.

Entry

If the following popup appears, enter **US00** in the Company Code field and confirm with . If it does not appear, click the button  **Company Code**.

US00

Note You can also change the company code at any time by selecting the button  **Company Code**.

On the *Enter Customer Invoice: Company Code US00* screen, search for your customer number for Motown Bikes by clicking the value help icon  in the *Customer* field.

Enter your three-digit number (###) as *Search term* and the name of your customer **Motown Bikes** as the search term and select .

Create Correspondence

In the previous step, you cleared all open customer invoices except ### Motown 2 and ### Philly 2 by posting an incoming payment. In the SAP system, you will see the open \$5,500 from Motown Bikes and Philly Bikes as the balance and the posted \$28,500 in the credit. The debit contains all the receivables from the debtors and the credit contains the payments (or credit memos).

Click on the \$28,500 in the Credit column.

You can see that 5 items have a balanced status and 2 items are open. Also, in the last column you can find the list of the related accounting documents.

Click  to return to the SAP Fiori Launchpad.

Step 6: Scenario 1 - Cancel receivable/bill

Task Cancel the invoice for the receivable from Motown Bikes .

Time 10 Min.

Short Description Use the SAP Fiori Launchpad to cancel the receivable.

Name (Position) Shuyuan Chen (Head of Accounting)

Your customer Motown Bike has informed you by telephone that the delivery of the First Aid Kit FAID with the reference ### Motown 2 is no longer needed. Therefore, you must cancel the invoice document for the trade accounts receivable. Also, check the influence of this on your balance sheet.

Scenario

Substep 1: Use the app *Balance Sheet/Income Statement* to view the effect of your open trade receivables.

Fiori App

Balance Sheet/Income Statement

For company code enter **US00**, choose **0L (Leading Ledger)** for ledger and as statement version enter **GL00**. Make sure that you select the **period** in which you made the posting from the previous step as the end and comparison end period.

Pay attention to the line *Trade receivables*. The period balance should now be lower. Note that the total is not user specific. All users post to the same company code. Also, the SD case study may have an effect on this.

Trade receivables	1200000	45.000,00 USD
-------------------	---------	---------------

Click  to return to the SAP Fiori Launchpad.

Step 7: Scenario 2 - Change invoice assignment

Task Change the assignment of the customer invoice from Philly Bikes .

Time 15 Min.

Short Description Use the SAP Fiori Launchpad to change the assignment of the payment .

Name (Position) Shuyuan Chen (Head of Accounting)

Unfortunately, an error has crept into your work. You had two bills over \$3,500 each for your customer Philly Bikes.

Szenario

- ### Philly 1: Inv: Men´s Off Road Bike
- ### Philly 2: Inv: Women´s Off Road Bike

The amount of money received from Philly Bikes over 3500 USD has been misclassified by your customer. That's why you have assigned the payment to the reference ### Philly 1. Your customer has now informed you that the payment should balance the invoice with reference ### Philly 2. You have to correct this now. Unlike Step 8, in which you later cancel the entire incoming payment, you simply have to change the assignment here. The money remains with us and only the compensation allocation and thus the still due documents are exchanged.

Substep 1: Use the *Display Customer Balances* app to display the open items.

Fiori App

On the *Display Customer Balances* screen, search for your customer **Philly Bikes**. Also, enter your company code **US00** and the **current year** as your fiscal year. Click .

current year

The screenshot shows the SAP 'Reset Cleared Items' app interface. At the top, there's a header bar with the SAP logo and the title 'Reset Cleared Items'. Below the header, there's a section for filters. The 'Clearing Entry' field is set to '=1400000012', 'Company Code' is 'US00 (Global Blik...)', 'Clearing Fisc. Year' is '=2021', and 'Clearing Fisc Period' is empty. The 'Posting Date' is empty, 'Journal Entry Date' is empty, and 'JE Created By' is empty. There's a 'Go' button and an 'Adapt Filters (3)' link. Below the filters, there's a table titled 'Clearing Entries (1)'. The table has columns: 'Clearing Entry', 'Company Code', 'Clearing Fisc. Year', 'Clearing Fisc Period', 'Posting Date', and 'Journal Entry Date'. The first row shows: '1400000012', 'US00', '2021', '9', '20.09.2021', and '20.09.2021'.

Note If you have not written down your journal entry number, add the filter **JE Created By** by clicking on **Adapt Filters (1)** and select this checkbox.

JE Created By

The screenshot shows the 'Adapt Filters' dialog box. It has a 'Reset' button at the top right. There's a dropdown menu set to 'All'. Below it, there's a search bar with 'JE' entered. Under the 'Clearing Entry' section, there's a checkbox for 'JE Created By' which is checked. Below the checkbox, there's a text field with '=LEARN-900' entered.

Enter for JE Created By your user (**LEARN-###**), as well as Company Code **US00** and as Clearing Fiscal Year the **current year** and click **Go**.

Reset

Reset and Reverse

You now have two options

- **Reset:** The assignment of the payment to the open item is reset.
- **Reset and Reverse:** The assignment of the payment to the open item is reset and the incoming payment is cancelled.

Click on .

Click on  to confirm the message and click on  to return to the SAP Fiori Launchpad.

Substep 3: Previously you had incorrectly assigned the incoming payment of your customer Philly Bikes to the open receivable **### Philly 1**. You reversed this assignment in the previous SubStep. In this Substep, you need to assign this item to customer invoice **### Philly 2**. Use the *Display Customer Balances* app to display the open balances.

Fiori App

On the *Display Customer Balances* screen, search for your customer **Philly Bikes**. Also, enter your company code **US00** and the **current year** as your fiscal year. Click .

Philly Bikes
US00
current year

Click on your balance in the current period.

You can see that both invoices and the payment now have the Open status again. Click on your customer number at the beginning of the line to open a popup menu.

Pay attention to the trade receivables. After the cancellation, the period balance should increase due to the receivable then being open again.

Trade receivables	1200000	45.000,00 USD
-------------------	---------	---------------

Click  to return to the SAP Fiori Launchpad.

Substep 3: Use the *Reset Cleared Items* app to undo the assignment of the payment.

Fiori App

In the *Reset Cleared Items* window, enter your **Windy Bikes clearing entry** (Step 4), as Company Code **US00** and as Clearing Fiscal Year the **current year**. Click on **Go**.

Philly Bikes
clearing entry

US00
current year

The screenshot shows the SAP 'Reset Cleared Items' app interface. At the top, there's a header bar with the SAP logo and the title 'Reset Cleared Items'. Below this, there's a section for 'Standard*' with a dropdown arrow. The main area contains several input fields: 'Clearing Entry' (with value '=1400000014'), 'Company Code' (with value 'US00 (Global Bi...)', 'Clearing Fisc. Year' (with value '=2021'), and 'Clearing Fisc Period'. There are also fields for 'Posting Date' and 'Journal Entry Date'. A 'Go' button is visible. Below the input fields, there's a table titled 'Clearing Entries (1)' with columns: 'Clearing Entry', 'Company Code', 'Clearing Fisc. Year', 'Clearing Fisc Period', 'Posting Date', and 'Journal Entry Date'. The table contains one row with the following values: '1400000014', 'US00', '2021', '9', '20.09.2021', and '20.09.2021'.

Note If you have not written down your journal entry number, add the filter **JE Created By** by clicking on **Adapt Filters (1)** and select this checkbox.

JE Created By

The screenshot shows the 'Adapt Filters' dialog box. It has a title bar with 'Adapt Filters' and a 'Reset' button. Inside, there's a dropdown menu set to 'All'. Below it, there's a search bar with 'JE' entered. Under the 'Clearing Entry' section, there's a checkbox labeled 'JE Created By' which is checked. Below this checkbox, there's a text input field with the value '=LEARN-900'.

Enter for JE Created By your user (**LEARN-###**), as well as Company Code **US00** and as Clearing Fiscal Year the **current year** and click **Go**.
